Pursuant to 37 C.F.R. §1.56, §1.97 and §1.98, documents that may be material to the examination of this application are listed on the attached PTO/SB/08A form. Copies of the listed documents are enclosed with the confirmation copy of this submission.

The cited documents disclose numerous specific features. There has been no attempt to enumerate each and every feature disclosed by each document, however. The Examiner is requested to review these documents and to determine the extent of the materiality of the document disclosures, if any, with respect to the present invention.

No inference should be drawn that the attached list represents a comprehensive investigation or that any disclosure(s) in the listed documents is equivalent to the subject invention. The discussion of any art and the citation of any documents herein are not to be construed as an admission that these citations are necessarily within the invention field of endeavor or prior in time to a particular date which may be relevant with respect to the instant application. Further, the recitation herein of the art and documents is not to be construed as an assertion that more pertinent art could not

possibly be in existence or that the newly cited documents are necessarily prior art as defined by the patent law.

The right to later set forth how the claimed invention is distinguished over the disclosure of any document or other art, including the disclosures of the art and documents cited herein, and those that may be cited by the Examiner in rejecting a claim in the instant patent application is reserved.

Respectfully submitted,

Date:

September 22, 2005
